**Subject:** Re: ROC LTO - winter-run I&S

Thank you, Brian. I can tell you've done a lot of continued work on this! The one thing I didn't see was a discussion of the new objectives (Shasta and Delta); especially for the Delta analysis I would expect to see some change.

I'll read more carefully later.

- M.

Hi Maria,

Attached is the track changes version (V9) so you can see how your comments were addressed, and the clean version (V10). I worked with Cathy and Evan on incorporating the revised PA for Shasta, and worked with Barb and Jeff for revised Delta PA.

Let me know if you have additional comments.

Thanks,  
Brian

A few more comments back from me to chew on....always available to discuss, but I thought you might want to look at these before tomorrow am.
