Sneaking suspicion you all are working today...anyway, please see the attached document from BOR. It is a document designed for their leadership, but one thing I noted was the understanding that the effects analyses would be transmitted from us to BOR and USFWS on Monday at 8:00 a.m. Is that still the case? If not, I need to let the comms folks know as well as the congressional reps.

Thanks,

Jim

Jeff,

Just a couple of comments...nice work, BTW. I do want to make sure folks know this is a draft effects analysis...so I made some edits there. Thanks again,

Jim
