Please take a quick look, comments back in track changes.

I didn't include the "monitoring" task, as it's part of the ITS, I think, and still need to figure out when Joe can work on and finish it.

Once OK, I will "reply all" to Maria's e-mail, then dole out the bad news to the team.

Hi Garwin, I know you are the master tracker of all deadlines. Can you lay out in the morning what is due to whom by when this week? This is definitely super-crunch time with revised effects, INS, IT, terms and conditions and RPA due by end of the week, and only 3 days left....

Thanks,
