Subject: approach to restoration for EnvB etc

Hi Brian and Joe,

I thought I'd go ahead and share this "draft approach" document as it is now. I met with Rosalie and Nancy Munn (my fellow S7C) to talk about it, and we had some good conversation. Through it, I added a "I&S" section, so it goes through how each section would approach their conservation measures (restoration actions).

Let me know any thoughts (feel free to offer edits, etc).
I also sent to Garwin and hoping to talk with him tomorrow.
