Naseem,
I think this is the memo you asked about for ROC LTO, although this one is dated 2016.

Amanda,
I'm pretty sure this is it, but please confirm.

Thanks,
Brian

FYI - I don't think Maria has signed the report yet, so may be able to incorporate. I will check with Aimee to see if there is time.

Hi Amanda,

I still need to put some final touches on this, but the basic story is there. Harvest in hatchery-origin steelhead has increased with the liberalization of the regs effective March 1, 2010. I hope you can still sneak this into the document. Sorry about the delay. There was something weird in the data and Terry wasn't in last week to help me out. We got it squared away today.

Please let me know what you think.

Thanks,

Rob

Hi Rob,

Hope all is well. Just checking in - wanted to give you a heads up that the Federal Register Notice announcing the availability of our 5 Year Status Reviews will be published the week of April 18th. So we are getting down to the wire for incorporating any additional information/changes to the document, etc. If possible, hopefully you can send over any updates you have by Wednesday the 13th. This should give us enough time to incorporate the updates and ensure the appropriate people can review prior to releasing the document.

Thanks!!

Amanda

Hi Amanda,

I have to finish one report for Leslie and then I will get this over to you. With a little luck, you will have it by the end of the week.

Thank you for the reminder!

Rob

Hi Rob,

Just wanted to give you a heads up that I received comments from our GC for the CCV Steelhead 5-Year Status Review. I will be working to incorporate their comments this week.

At your earliest convenience, can you send over the updated information you have regarding the effects of angling restrictions, etc.?

Thanks so much!

Amanda
