Hi Rosalie,

Thanks for taking a look.

Attached is the the BA's table 4-6 (which they call "conservation measures"), as well as Appendix C of the BA - which starting on page 12 lists the programs of monitoring (that they said is included in the PA).

Hi Rosalie,

As I mentioned to you at the end of our call, attached is the draft "approach" to dealing with Reclamation's desire for "coverage" for all the existing/ongoing restoration and monitoring programs.
The attached is my attempt to describe this approach for both the EnvB as well as Effects of the PA.

The draft includes Garwin's thoughts.

Thanks for offering your thoughts!
