**Subject:** UC Davis Zwilling Lit Review

Hi Walt and Meredith,

We're not sure we have a copy of the UC Davis Zwilling literature review on temperature that RB5 funded and Betty coordinated. I think the title was "Variation in Thermal Eco-physiology among California Salmonids: Implications for Management" (or something similar). We understand it's still making it's way to publication so the peer reviewed version may not be out for awhile, but could we ask you to resend whatever version or deliverable resulted from the RB5 effort. We know it was sent out previously to reviewers and workgroup, but we can't track down a copy here.

Thanks so much for the time and help!
