Subject: Re: Archive I&S Sections

fyi, the latest version of the spring-run I&S is now this:

2.8 Integration and Synthesis ELLROTT SR V2

I put the previous version in the Archive folder. I made a new version because I wanted to preserve the old one before making changes to address comments that Rosalie made on the w-r I&S that also would apply to the spring-run I&S.

Hi Susan,

There was only one version of the I&S for w-r and one for s-r in the main folder - I've been archiving along the way.

latest w-r: 2.8 Integration and Synthesis ELLROTT WR V2.rd bje

latest s-r: 2.8 Integration and Synthesis ELLROTT SR V1 srb

Hey Garwin,

I assume you created the "..to reviewers" versions. Can I archive those?

Thanks,
Brian

Hi Joe and Brian!

If you have a few minutes, can you please go into the I&S folder and archive all older versions of your sections. There is an "Archive" folder that contains many old versions and files that are no longer needed. It would be great if we could move everything that isn't being used or the most current out of the way to avoid version control issues and confusion.

Thanks so much!
Susan
