Subject: RE: Discuss NMFS ROC Modeling

Hey Cathy-

Thank you for getting back to us. Chandra and I were trying to get a better idea of the modeling approach that will be adopted by NMFS. At the meeting last week, there was some uncertainty regarding which models NMFS was planning to use. I wouldn't characterize our interest as having any specific concerns, rather we are merely trying to be informed as to the proposed analysis.

Unfortunately, we cannot make 8am tomorrow. We can make Monday anytime between 1-3:30 or after 4 or anytime Tuesday.

Thank you!
Becky

Chandra and Becky --

Are you free for a call at 8 or so tomorrow morning? Regardless, it would help me if you could give me some bullet points of concerns with our anticipated analysis. Maria and I haven't been able to connect on this in detail.

Thanks,
Cathy

Hi Cathy,

I'm so sorry for the delayed reply. I am not really the right person to talk to. I checked with Becky and Chandra and they could meet tomorrow after 4 if that can work for you. I've copied them so you can coordinate directly, as I'll be out of pocket all day again tomorrow.

Thanks for taking time out of your leave to help with this.

J

Jennifer,

Maria mentioned talking with you about our methods for the ROC. I'm on leave this week so it will be tricky, but I could carve out some time for an initial conversation with you. Is there time on Tuesday afternoon or Wednesday that I could catch you?

Thanks!
Cathy
