Subject: Re: DSM2 Channel Velocity Analysis - locations

Hi Katrina --

Barb indicated that they expected to need the locations used for CWF as well as some others. We are really taxed right now so I can't provide the specifics of the additional locations, but will as soon as the team can get them to me. I suggest the work begin on the locations listed in the attachment, and I'll get the other info to you very soon. Is this doable?

Thanks,
Cathy

Hi Cathy -

Just a reminder that we need confirmation on the locations that you want the DSM2 velocity comparisons for in order to move forwards with the additional DSM2-HYDRO analysis that you requested. Basically, whether it is the same locations as Table 2-166 in the attached or whether you'd like any different locations. Once you confirm the locations we believe it should be pretty fast.

Thank you,
