Subject: NMFS Additional DSM2 Channel Velocity Analysis Locations
Attachments: Untitled attachment 00934.pdf; Untitled attachment 00937.html

Katrina --

On the first page of the attached document, NMFS identifies additional locations for analysis of DSM2 results to support our analysis for the ROC LTO. This is in addition to the locations used in the CWF consultation that I suggested be started earlier this week. Please let me know if you have any questions on these.

Thanks,
Cathy
