Hi Cathy – if someone serves as an advisor/reviewer at this stage, they wouldn't be eligible for a later review on the same issues/documents since they will have already given substantial input and would be reviewing their own input. I'll be at IEP and another meeting tomorrow but could talk on Thurs. if that would be useful. John

Hi John --

We don't have anyone lined up yet, this was a list of potential people to reach out to, and no one has been contacted yet. I completely understand the concern over eliminating potential future reviewers, and maybe we need to talk through that before somethings goes out to potential participants.

I'll be talking with FWS later today, and maybe it would be good for us both to talk with you tomorrow or so. Are there specific criteria that would prevent participation in future panels?

More to come --
Cathy

Hi Cathy and Garwin – Dylan and Yumi forwarded your note on to me – the issue for us is that if reviewers are used for this stage of the process then that rules them out for any future review that is requested from the DSP (assuming that when things slow down there likely will be a separate review requested by you or others), so it's important to be mindful of the current selections if any future review is going to be requested related to the reinitiation. I'm assuming that you've narrowed the list from what was initially included below – what other reviewers are currently lined up in addition to Nancy M. and Ron K. at present? We just want to be sure that we don't wipe out a significant portion of future reviewers. If you'd like to talk over details, let me know. I'm at IEP today and part of tomorrow but could step out for a call. John

Dylan and Yumi --

I can hone this a bit -- we now really only need info for Ron T. Kneib and Nancy Monsen. If you have their email addresses, we'd greatly appreciate you passing them on!

As background, NMFS has a contractor coordinating an independent peer review for the NMFS and FWS biological opinions on the reinitiation of OCAP. We weren't able to do the DSP process because of the time required and the deadline set by the Administration. We're trying to get some experienced reviewers for a two-week gig in May.

Thanks!

Cathy

Hi all --

Can any of you provide an email address or affiliation for any of the names listed below? Sorry for the all call -- we are trying to help John Ferguson

quickly compile info so that we can get a jump on potential peer reviewers for the ROC on LTO.

Thanks,

Cathy
