Subject: Adaptive Management Planning

Carl,

We are starting conversations with Reclamation on adaptive management after the 3 Federal agency directors recently agreed to work together to modify the 5-agency AMF to fit the ROC on LTO purpose. I think that we are going to need CDFW at the table if this is going to fit into CESA/CEQA processes in the future and so I want to reach out to you early to see if you are interested and able to participate. We will probably hold a federal meeting first, next Wednesday, but I will want to open this to you soon after. Please let me know what you think.

Howard
