**Subject:** DPM Data Processing Request

Katrina --

In looking for all opportunities for efficiencies, we've identified a data processing request. Is it possible to get this in the next day or so?

-DPM broken down for each species by cumulative average over the 82 year period for each of the water year types plus all years using a box plot with the 97.5 and 2.5% whiskers and a 25 to 75% box plot with median and average points in the box (like we did in CWF).

Thanks -  
Cathy
