Hi Mary Lee- Hope you are doing well. We are on track to meet the schedules for Yolo and Roc. We haven't received the BA yet for BF Sisk, but anticipate meeting the schedule assuming we receive a complete BA soon. This project is being handled by the Sacramento Fish and Wildlife Office. For the remainder of the projects we anticipate being able to meet the 135 day schedule assuming we receive complete BA. Thanks, kaylee

Hi all,

Hope all is well. We are working on a progress report for the Presidential Memo on Western Water and need to confirm that USFWS is still on track for the following BiOp dates. Would you please let us know by noon tomorrow, 4/2?

**ROC on LTO**

BiOp: 6/15/19

**Yolo Bypass Salmonid Habitat Restoration and Fish Passage**

BiOp: by 4/30/19

**B.F. Sisk Safety of Dams**

BiOp: by 8/31/19

We also want to confirm that USFWS is OK with the planned approach to issue a BiOp 135 days following BA issuance (provided the BA is complete and there is Congressional authorization) for the following projects:

- Temperance Flat
- Los Vaqueros Reservoir Expansion
- San Luis Low Point
- NODOS (Sites)

Let me know if you have any questions.

Thank you,

Mary Lee

Thanks much,  
Mary Lee
