Hi Cathy,
Here is my working excel file. It is not intended for public consumption, but rather a tool with which to produce charts for public consumption.

This works, even without the update. Can I get the excel (I'm assuming) file with the data so that we can take off the five year average....and be sure we have a complete record (which for me is striving to have supporting data for all plots we use).

Thanks!
Cathy

Cathy,
I have this chart, but it only goes through Dec 2017. I can update it for 2018 numbers on Monday if you want.

Derek --

Do you have plots of historical annual total Delta exports from 1960s through present? We could pull from dayflow and re-do, but wanted to see if you already did it for something sometime.

And thanks for the info on dewatering. I sent that on to our Sac River Division lead.

I've been poking our team for specifics for you, but haven't gotten any bites. But I heard Barb had some items for you.

I also see that you are on the two Tuesday Shasta/upper Sac meetings. We are putting together a list of questions to address at that, and I'll remind others that you should see those too.

Phew.

Thanks!
Cathy
