**Subject:** Re: Green Sturgeon stressors

Hi Barb,

Stressors Paragraph:

These stressors reflect many of the threat categories from Table 1 on p. 22 and 23. Some threat categories were not include in the stressors lists because they were determined to not be relevant for the ROConLTO consultation. Some additional stressors were added from the extended descriptions of stressors in the section Threats to sDPS Green Sturgeon from p. 20 to 37.

Do you need any more information?

Thanks,

Page

Hi Barb,

Yes, I'll get to work on it!

Cheers,

Page, can you draft a short paragraph explaining where your list came from in the recovery plan? Something like "These stressors reflect many of the threat categories from Table 1 on p. 22. Some threat categories were not included in the stressors list because they were deemed not relevant for the ROConLTO consultation. Some additional stressors were added from the extended lists of stressors in <recovery plan section or sections>"

I will be writing a memo to the record to document where our lists came from, and want to have an accurate blurb for the GS blurb. Would be great to have that by Wednesday, 3/13.

Thanks,  
Barb

Hi Barb,

I've attached a quick outline on GS stressors.

Thanks,  
Page
