John, have posted the salvage density stuff to my google drive and shared with you (and John and Cathy).

Salvage density results for John

Hi Barb,

Do you have the salvage density model info you could send me?

I believe I've made all the other edits you and Dan suggested and just need to consider what is in that salvage info now. The DPM model is intended to incorporate salvage along with all the other sources of mortality in the delta but it will be good to take a look at that salvage info like you suggested.

Thanks
