**Attachments:** ChinookProduction\_V3\_clean for SWFSC.mro.docx

Hi Cathy et al.,

See attached for my thoughts on the two questions identified in the analysis you sent (in comments on p. 24-25).

Thanks,  
Mike

Michael and Eric --

The CCVO, with help from PRD, is doing an analysis of effects of the operations of the CVP/SWP on SRKW for our ESA section 7 consultation for those water delivery projects. John Hannon (Reclamation) provided an analysis of effects to salmon from the perspective of prey base for SRKW.

Barb Byrne is the CCVO lead biologist on this and has identified two targeted points in John's analysis that she would like to have a pass through SWFSC for a check on accuracy. These are at the bottom of p. 23, and on p. 25. Could you take a look and provide your thoughts on her questions?

We are unfortunately under time crunches with this project. It would be really great to get an answer by COB Tuesday. Feel free to contact me or call Barb or Dan if you have any questions.

Thanks!  
Cathy
