Beverly and Norma,

We received another round of separate comments on the Shasta part of the analysis. We have asked DOI to consolidate the two versions, but I am not sure if and when that will happen, so I am erring on the safe side and hoping you can print the attached document and include in the binders you are putting together.

Thank you!

Howard

Look forward to seeing the additional analyses. Again, pursuant to our ongoing legal coordination, attached are additional comments on the upper Sac section. The team didn't quite make it all the way to the end. Detailed comments go through about page 75 (with a few scattered after that). But this will give us plenty to discuss.

Thanks, Lori

Thank you Lori. We are putting the final touches on other sections for review by you, and NOAA GC. We should have them out by around noon on Friday.

Howard, Deanna and Chris, pursuant to the ongoing request for joint legal advice, attached please find Interior's comments.

Thanks again for NMFS' hard work on this; look forward to our continuing discussions.

Best, Lori
