Subject: ROC on LTO deconstructed action

Hi All,

I'm sending this to everyone but it's mostly for the division leads.

Anyway, I've read through the PA and have tried to diagram/deconstruct the action in a way that made (some) sense to me. Please take a look at the attached figures and see if the way I've laid out your division makes sense to you. Also the first slide of the ppt is a diagram of how Reclamation broke-out components of the PA according to table 4-6 of the BA. The subsequent slides diagram the different divisions.

Any feedback would be a big help but rather than comment or change the ppt slides, please add comments or suggestions to the linked Google Doc:

Thanks,
