I'm ok with you asking him directly -- just cc me when you do so I have an idea of the traffic. We aren't inundating him with tasks right now so it's all good.

Thanks! That file has the pumping, but not pumping as a percentage of total unimpaired. Not sure if he has that ready made, but it sure would help tell our baseline story.

Oh, jeez, sorry, he did give me the data files but I just lost them in the shuffle.

They are here:

S:\Data_Tech_Info\Historical

How about data and/or a figure on the percentage of exports relative to total unimpaired Delta inflow over that same or a similar historic time period? That would be preferable to the historic exports alone figure, but I'll take what I can get.

Also, I have a good relationship with Derek, so could ask him myself. Happy to continue going through you too to stay in our communication lines.

Thanks

Thanks! Looks great, doesn't need to go longer. I'd like it without the 5-year averages, don't plan to talk about those. And if Derek doesn't mind sharing the data, it would be nice to have.

Cathy,

I have this chart, but it only goes through Dec 2017. I can update it for 2018 numbers on Monday if you want.

Derek

Annual Historical Delta Export Pumping Volumes
