Subject: For review/clearance: ROC on LTO Section 2.1 Analytical Approach

All,

Attached is the revised analytical approach section. Please see Cathy's e-mail, below, regarding status of comments.

Naseem and Chris cleared the earlier version, but because the doc has been revised to incorporate track changes received, feel free to review and (hopefully) clear again.

Please let me know of your clearance or send comments back by COB Thursday, April 11.

Thanks.

To: Garwin Yip <garwin.yip@noaa.gov>

Garwin --

Please distribute to Rosalie, Naseem, Howard, Maria, and Chris (and Susan) for review the subject document. It can also be found on the server here:

S:\Draft BiOp\2_ESA\2.1 Analytical Approach\2-1_Analytical_Approach_V5.docx

All tracks have been accepted. I have mostly retained comments but marked them as done (though often kept my response in black text). Maria's comments are still entirely visible for her to key in on them quickly.

We still have two outstanding items (pink) that we'll discuss with GC and Rosalie on Thursday.

Yellow items are pending and placeholders.

Blue are references.

We intend for this to be distributed to Reclamation on 4/15. I personally believe that the yellow (pending) and blue (references) comments can remain for that distribution. I will clean all others after this review.

Let me know if you have any questions.

Thanks -
Cathy
