**Subject:** Shasta RPA adjustment process check in

Pablo, Michelle, Ron,

I'd like to check in with you to make sure we have our team approach structured correctly to get to success. Garwin and Brycen and I met recently. We would propose:

- technical team with NMFS (Garwin and Brycen), BDO and CVO that meets weekly or bi-weekly,
- a management check in of all of us with this team every month (ie we join one of their weekly meetings)

Specifically we are reluctant to start discussions with BDO, without CVO, given that a lot of the drought lessons learned has been between us and CVO, and I am hopeful that we can quickly come to some main points of agreement given our common framework.

If you agree, I would will volunteer to help get these scheduled, if you can provide names and counterparts on your end.

- Maria
