**Attachments:** SNOAA - CVO16102809560.pdf

Yeah, that would be helpful. I didn't write anything up, just looking over my notes as I start track-change editing of the RPA.

See attached for a Reclamation handout on end of April storage, cold water pool, and TCP relationship. It was good to see Reclamation starting to think about different storages. Way different discussion than earlier when they were opposed to storages and 55 7DADM.

Thanks Garwin. I've been curious whether you wrote up any notes after our last session (ie "concepts") - I can try to do that from my notes, if helpful.

All,

See attached for Craig's memorandum, "Analysis of historical Shasta Reservoir storage volumes" that we discussed digging up during yesterday's Shasta RPA adjustments technical team meeting.
