Evan is out sick today. I took a quick scan of what he put together late last week, and it contains the basic info we suggested.

Potential outstanding tasks on that:

Cross-check with some other tables I sent yesterday from CWF that was comparing methods proposed to be used for remand with those proposed to be used for BDCP. B/c remand/OCAP covers a broader geographic area than CWF, there may be items on the remand list that should be included in what we submit to Rec.

Any type of preference/weight of evidence selection.

I can maybe get to some of this tomorrow. I HAVE to get litigation response done today...the courts don't care about our presidential memo.

If it doesn't need to go to Rec until later on Friday, we can probably work a lot on it on Thurs.

Cathy and Garwin,

Any updates Evan and Barb's efforts on pulling together modelling needs and recent science to send to BOR. Maria is expecting this to go out on Friday, so we will need to button it up and Maria is also asking to see the package before it goes out so I think we will need to get something to her sometime Thursday.  
Howard

Hi Both,  
Hoping to be able to see what's getting submitted to Reclamation before it goes out on Friday. Thanks,  
- Maria
