2009 RPA_2018 draft PA_DETAILED comparison

Howard, Sarah and Evan (thanks!) put together a detailed comparison of Shasta ops and Clear Creek ops in this document on the google drive: 2009 RPA_2018 draft PA_DETAILED comparison. I started to try to put together a higher-level doc but it trended towards the high-level PA comments we already put together. Will try to create an "intermediate level of detail" comparison table as well as fill in the detailed table for internal use.

Feedback/suggestions welcome from all.

Garwin and Barb,

Thanks for all of your work preparing for the tiger team meeting yesterday. Looking ahead, we need to do some prep for our small group meetings. This is where I think we need to pull together a side-by-side analysis of what is in the PA and what was in our RPA for the critical items that are likely to be most challenging for us. Can you get that together today? I'm thinking that we need Shasta, OMR, I:E and HORB/Georgiana. I am also thinking that Barb should go with Jeff to the Friday meeting with Reclamation.

Meanwhile I am going to try and get something on Maria's calendar to prep for the Tuesday Shasta session.

Thanks again!

Howard
