So should I make the changes tonight to help in conversation tomorrow? Or we'll just talk through it on a whiteboard?

Garwin is out, Barb recuses herself, so Naseem or I make the executive decision, right ? Can I executively decide that we've already decided???? ;)

Cathy -- Please consider holding off on sending out updated outline and CH approach tonight. I just talked with Naseem and she has some qualms about the approach we landed on at our 3pm meeting today (and may be having some second thoughts about using the stressor lists from the various recovery plans...). While I think drafters ARE looking for guidance, I think it would be best to send something early next week that has full buy-in from the ROConLTO managers and our Section 7 Coordinator (and Recovery Coordinator!), rather than send something tonight that we might tweak again.

All -- I'll put a meeting on the calendar for tomorrow -- not sure how else to resolve this unless someone just makes an executive decision (and I don't think I'm that executive). Garwin & Susan are invited as optional participants because Garwin will be on leave and Susan will be wearing her FWS hat; just wanted them to be aware of the meeting.
