Would definitely be a helpful visual to go along with the AA section.

**Subject: Request to Reclamation**

Can we request that Reclamation provide us with maps of the action area similar to the attached? Most notably the first one to include the other tribes and reservoirs.

The killer whale one is actually generally fine as is, in terms of showing the action area that we will use. They could revise the figure to adjust anything in the legend, etc. but don't really need to.
