Subject: Fwd: Update on Delta effects analysis -- status by project component
Attachments: ATT00001.html

Jeff,

I just realized that Barb sent this to the wrong Jeff Stuart. Please confirm your receipt and direction.

Before I left the office today, I checked the Delta section of the draft BiOp folder and didn't see any of your draft analyses. Shawn let me know this afternoon that you finally were able to get WiFi access, and that you would download your draft sections on Thursday (I think). Per Cathy's e-mail from Friday and my text from this morning, please download your completed draft sections ASAP, and let us know their location(s). Please also group e-mail or group text all of us so we all get the scoop. Today, I heard bits and pieces from Cathy, Barb, and Shawn.

Thanks.

Subject: Update on Delta effects analysis -- status by project component

Jeff -- See the attached for the assignment status based on our discussion after the ROConLTO check-in meeting this afternoon. Green=things on track to be done by 3/28; Pink=things back on your plate due 3/28; Yellow & Blue = things reassigned to others.

Bottom line? Please send write-ups for "Agricultural Barriers" and "Clifton Court Predator Management", on the original timeframe of by COB Thursday, 3/28. Please focus on the key effects necessary for the I&S section (e.g., maybe the details of predator management don't matter too much because survival doesn't seem to be much affected?) and incorporate the deluge of materials we got by reference rather than try to do a detailed summary.

Barb
