Subject: Re: killer whale effects for ROC

Hi Dan --

Some of us glanced through this late last week, but haven't reviewed it closely. I'm not sure who's plate it is landing on, so I suggest you talk with John as you need and not wait until one of us is free or has been designated to read it. I'll try to get to it later this week.

Thanks,
Cathy

Hi all

I wanted to check in and see if any of you have, or are planning to, review this analysis. I do have some questions for John, but it makes sense for someone else from the CV office to join in that conversation with John and/or provide input to me on this assessment before I get too far off and running with it.

Dan

Hi John

I'm just getting back from a long weekend, and look forward to digging into this immediately.

Anticipating I will have some questions, are you generally available later tomorrow afternoon or Wednesday AM?

Dan

Hi Dan,

Here is a draft section on effects to Chinook as killer whale prey. Let me know if you have any questions or suggested edits or if you'd like to have a call to discuss anything.

Thanks,
John
