Subject: Action Area and Project Description from ROCON

Latest versions of subject docs attached.

Sometimes when my ROCON drive doesn't show up automatically, using this URL from Shawn will work -- just paste it into a web browser or in the header of File Explorer: \\wcrfsac\SACDATA\CVP ROCON

Are you done with the effects section and I&S tables? That's your highest and only priority. See the **red**, below.

I tried rebooting a few times when my VPN was acting up, and now, the CVP ROCON drive isn't showing up. When you access the server, please send me the latest versions of:

- Action Area
- Project Description

I expect to do some catchup this weekend.

On my list are:

1. Review final action area (want to check the Feather R. to see how it conforms with the description of the Feather in John Hannon's fall-run analysis).
2. Review key consultation considerations

3. If time, draft "recovery" section for I&S **Nope. Reassignment, but I didn't have time today to tell you. If you want, dust off the ITS from the 2009 BiOp and CWF.**

Are there effects sections I could review? Sounds like we might be waiting for Susan and Norma to clean up formatting and citations before sending for review... **FYI, regarding process, we're not waiting for Susan and Norma before we review anything. They are fitting their stuff in when they can.**
