Garwin,

I've gone through Maria's comments and either responded to the comment or inserted an (outline) place holder in the text to address her comment (usually both). For each place holder I also identified what I think is the level of difficulty/effort needed to fill in the placeholder.

This version of the document is on the ROCON drive here: R:\Draft BiOp\2\_ESA\2.5-2.6 Effects of the Action\Shasta Division\Sacramento River
