**Subject:** Re: For Review: ROC on LTO key consultation considerations

Thanks Garwin,

Attached is my review.

Most of my "content" edits/comments are in the WOA section.

Top portion, suggesting we avoid stating their reasoning, and bottom portion, I transferred Rosalie's previous edits on the same paragraph which is in the Environmental Baseline (on our approach).

a few other edits/comments included for consistency/clarification

I'll continue to think about "additional consultation considerations" between now and COB Monday :)

Maria and Naseem,

I/We found it helpful in the 2009 CVP/SWP operations Opinion to include a Key Consultation Considerations section (I don't know if this was done in the CWF Opinion), so we're following suit by having one for the ROC on LTO Opinion. See attached for our work in progress, which is ready for your review. Cathy and Howard have reviewed it, and their comments have been incorporated. Please review, and provide any comments, including additional consultation considerations that we should include, **by COB Monday, April 15.**

Thanks.
