Perfect. Let's send back to brian to have him address those. I feel like we need to hit on as many of these little tasks as we can as early as we can.

Yep! I deleted the old reference/comments for the ones I inserted and highlighted or commented on the ones I was not certain about.

Thanks. Did you flag those that are not cited in entirety? That would help Brian out as he goes through my/our track changes.

Just FYI -

The subject document is ready for whatever the next steps should be. I went through and did some updates and inserted most references. Some references are not in the CVO library and/or are not cited in entirety, so I'm not sure what they refer to. Some references are missing as noted by Garwin.
