Below I've excerpted the info on KL sampling in WY 2013 from the WY 2014 DOSS report (see p. 37 of report, available at top link of the WY 2014 DOSS page: http://www.westcoast.fisheries.noaa.gov/central_valley/water_operations/ocapwy2014.html).

"In WY 2013, concerns about take at the Tisdale and Knights Landing rotary screw trapping (RST) locations resulted in the shutdown of those monitoring sites on 12/15/12. While Tisdale sampling was resumed on 3/4/13 under a modified protocol, sampling at Knights Landing did not resume during the 2013 juvenile salmonid outmigration season."
