Subject: Re: Updates and effects sections needed

Latest version is attached and on the ROCon drive. Maria did have one additional section she wanted to address regarding hydrodynamic effects in the south Delta which will have to be a place holder for now until I can write it up. Maybe I can work with Barb to include some of the SST report findings s to fill this section.. Have call with Russ Perry and Cathy this morning to discuss getting his transit model run and incorporating Delta survival / transit times into the Delta section

\\ROC-Long term Operations\2019 Consultation\Draft BO\Draft BiOp\2_ESA\2.5 Effects of the Action\Delta Division\2.5 and 2.6 Deltamr--jss

Please e-mail me your revised effects sections (obviously with my assumption that you're done, and place a copy in the ROCON drive).
Thanks.
