Subject: Stan section

Kristin -- Stan section is attached and on the ROCON drive (can you get to that now?).

Some highlights/requests:

--focused on comments on my section

--Many of Garwin's comments on your section are about organizations; (obviously) feel free to move some things up into the first exposure discussions for seasonal ops/SRP; you can then refer back to those details and focus on how that species presence overlaps with DO exposure.

--Please take a look at the discussion of DO in the attached SEP Group doc and include a ref to it (I'm not sure if our low concern is consistent; if not, maybe let's talk).

--
