That's awesome. Thanks! Can you e-mail it to me? I'm having trouble accessing VPN. Thanks!

Hi Garwin,

I have finished addressing comments for the American River division. The only comment I could not find updated data on is: annual water deliveries from the american river division (currently has 2000-2006).

Ok, I have updated the figures and associated text. Tomorrow I'll finish updating the flood release sections with the new BiOp.

Brittany,

I went in to the doc and cleaned it up a bit--accepted track changes, deleted comments that have been addressed. I saved it in a new file, and moved the others into the archive folder. I also added the location of Gary's BiOp in the comment chain.

Not sure if Brittany was referring to the attached updated figures but we didn't have a chance to incorporate these in the version Garwin reviewed.

I know you don't have time for these now, but here they are! We can work out how/who gets them into your sections, if not you.

Hello,

I've attached the revisions to the sheets. I've also included the captions and a paragraph that also needed updating. Let me know if there is anything else.

I may process the data differently so I also attached the notes that I keep for the data acquisition and processing.

Sorry for the delay. Let me know if you have any questions.
