Subject: Re: working on Delta section now; ETA around 8-ish

Thanks for the heads up. If I remember correctly, both of you had writing tasks left for the Delta section, not including incorporating the loss tables. We don't have time to make sure every word is perfect. As long as the concept is there so it isn't wrong (e.g., talking about salvage from old text when you mean loss), just let it go for now, and put it in the parking lot to fix this week.

Here's the deal. You may think some things are absolutely necessary to add or correct, and think you can take the time you need to get them done, but done is by 9:30 a.m., absolutely no exceptions, delays, nothing. I will do what I need to do with the 9:30 a.m. draft (and assume that that draft is saved on the ROCON drive) to send out.

Note that I will NOT have all the salvage tables updated; I thought I just needed to drop in the tables Jeff and I generated last week but Jeff has things summarized for each facility, and monthly for each WY type.
