**Subject:** Re: Delta section

It is to include the DPM results, which we got in mid March, but I didn't have time to include in the initial March 28 version, and setting the stage for the modeling Russ Perry is supposed to do for us (if we get the contract finalized) using transit times and routing modeling for through Delta survival. Maria touched on how the current Delta section didn't have the analysis we did for CWF for fish behavior in the Delta.

Please coordinate with arb first thing when she gets in.

How much are you including/have you written so far? This effort is to address Maria's comment(s), right?
