Subject: ROC on LTO: Stressors introductions team

Evan (team lead) and team,

We received comments back from Rosalie on the stressor introductions, which I have placed in the "Stressors materials" folder.

-- Can we (you) move the folder S:\Draft BiOp\2_ESA\Stressor materials into S:\Draft BiOp\2_ESA\2.5-2.6 Effects of the Action? I find myself looking all over for the stressor introductions, and since they will be at the beginning of the effects section, it makes sense (to me, anyway) to move them there.

-- Please use the file "20190506 Stressor Intros v1" as the base/your master, then incorporate Rosalie's track changes from the file "Stressor Intros--to reviewers.rd" into it.

-- Please address all outstanding comments, and Rosalie's track changes, so in the end, we will have a clean document with only comment bubbles for references.

-- Note that I will be sending out task e-mails individually, and you may have overlapping tasks. If you need help with workload or priorities, Howard, Cathy, and/or I will be available to help.

Thanks!

-Garwin-
