Subject: ROC on LTO: American River Division team

Brittany,

Brian is on leave, and both Brian and Joe are tied up on their respective I&S sections.

We received comments back from Rosalie on the American River Division effects section, which I placed in the ROCON drive.

-- Please use the file "2.5 and 2.6 American Effects V3--GY--to reviewers-do not change" as the base/your master, save a copy as a different file, then incorporate Rosalie's track changes from the file "2.5 and 2.6 American River Division Effects--to reviewers.rd."

-- Please address all outstanding comments, and Rosalie's track changes, so in the end, we will have a clean document with only comment bubbles for references.

-- For those comments you need help with to address, you can write a comment reply indicating that.

-- Susan and I will figure out the terminology comments.

-- Note that I will be sending out task e-mails individually, and you may have overlapping tasks. If you need help with workload or priorities, Howard, Cathy, and/or I will be available to help.

Thanks!

-Garwin-
