Subject: Re: Checking in with my UCDDPM

Hey, I'm going to DC M/T, so back Wednesday morn.
10 hrs flying so would likely have some time to review/write, etc.

Brittany and I met yesterday, and she will be working on bringing rows/actions over from E/I&S tables to the ITS table that she started.

She will start with winter-run and GS since they have been reviewed by RDR and are the farthest along.

Also, Jeff and I talked for a while regarding the delta take, and sounds like he has thought through what to use. Not sure his availability to start drafting? HB's tracker had for it to be drafted by Wednesday. Jeff mentioned going back to work on some effects yesterday.

At the moment, I'm working on an email to the management trio (you guys) to check in about consistency of conclusions.

How's it going?

You're going to the award ceremony, right? What days?

I hope you're keeping tabs on the I&S sections. I haven't reviewed the spring-run I&S section, partly because Brian has been on leave, and partly because I heard that Rosalie's comments on the WR I&S section hasn't caught up with the other I&S sections.

How's the ITS section coming along?
