Hi Sarah,

I know you said you've been working on this section, so there may be comments/edits included that are no longer appropriate.

This is the version Garwin sent to me on Sunday.

If there are any comments/edits that will result in TIME (to think/figure out, etc), please check with me first (or Garwin). There may be things we can wait on as far as getting a draft out on Monday.

Also, any wording that I included that doesn't exactly fit, please correct them - they are mostly examples of what the conclusions should be stating, but I don't have all the specifics in my brain!
