Subject: Reference Insertion Check in

Hey!

I just wanted to give you both a heads up on where we are with the reference insertions.

I've attached a table that Cathy and I have been working from to show who is assigned what and the basic status - although even the ones that have initials in the "Completed" column may be missing a few. My main concerns are that the Delta, Shasta, and Clear Creek effects sections have not been touched as far as references go, at least as far as I know; neither have WR and SH I&S sections.

I have a ton of work to do in the Delta section and am hoping to get it by 7 am on Friday so I don't have to work this weekend while my mom is here.

Endnotes is a bit clunky, but I think I'm getting things figured out. I would like to have a few minutes with Cathy tomorrow to discuss.

See you tomorrow!
Susan
