**Subject:** Re: ROC on LTO hard deadline on Sunday, 5/19

**My responses *in italic blue* (in consideration with the new peer review deadline)**

— What's your capacity to work this weekend (if not all day, specify windows of time)

*I can work most anytime this weekend. 6 hours per day preferred so I can also catch up on home chores.*

— What are you responsible for (e.g., division lead, reviewer, EndNotes, references), and where are you with your responsibilities? If you're done, that's awesome, but if you're not done, please be explicit about what you have left to do.

++ If there are additional details that would help us out that I didn't ask, above, do tell.

++ This information is critical for us to gauge what we need to do this weekend in order to get the sections at a stage that they could be shared with the world.

*Clear Creek effects lead.*

*++ I have been working on incorporating edits this past week and as 3 pm today, most recent version ready for Garwin's review.*

*++ I will take back edits or comments this evening so ready to send to Reclamation tomorrow by 9.*

*++ I updated I&S tables earlier in the week for Joe and Brian for Clear Creek. I will provide review when Joe sends latest version with his edits (based on his last email on this).*

*++ I plan to finalize references so they are ready for end-note tomorrow (about 3/4 done).*

— Please confirm that whatever documents you have been working on are in the CVP ROCON drive.

*latest Draft of Clear Creek effects v7 on the R drive*

All,

Based on the current ROC on LTO timeline, the peer review of multiple sections of NMFS' draft BiOp will be starting next Monday, May 20. In order to avoid any delays in getting the documents to the peer

reviewers (e.g., uploading hiccups, inevitably first thing Monday morning would soon be afternoon, etc.), we have Sunday night as a hard deadline to get the sections uploaded to an FTP site.

With that in mind, before you call it a work week, please reply to Howard, Cathy, and me with the following:

— What's your capacity to work this weekend (if not all day, specify windows of time)

— What are you responsible for (e.g., division lead, reviewer, EndNotes, references), and where are you with your responsibilities? If you're done, that's awesome, but if you're not done, please be explicit about what you have left to do.

++ If there are additional details that would help us out that I didn't ask, above, do tell.

++ This information is critical for us to gage what we need to do this weekend in order to get the sections at a stage that they could be shared with the world.

— Please confirm that whatever documents you have been working on are in the CVP ROCON drive.

Thanks!

-Garwin-
