**To:** Sarah Gallagher - NOAA Federal  
**Subject:** Clear Creek

Please check Rosalie's e-mail and make sure her comments (I don't remember if they were in an e-mail or track changes) are addressed. I think it was those summary conclusions.

Let me know when you are done with those (higher priority so I can send back down to Rosalie for final review and clearance) before you check the tables for consistency.

Thanks.

I have my references done and will update Norma tomorrow; addressed most of the edits in effects and added more clarifying summary conclusions where they were left hanging, working on a few more will be done before tomorrow. I will finish I&S tables cross check first thing tomorrow morning.

Good morning Garwin, I am going to follow up with tasks that I left off on Friday.

Review references and get to Norma, and check I&S tables again (per Joe and Cathy's email).

I have some outstanding edits in Clear Creek effects. We can discuss on our call before I proceed.
