**To:** Howard.Brown; Cathy Marcinkevage; Garwin Yip - NOAA Federal; Maria Rea  
**Subject:** Current plan of attack for Delta performance measures

Garwin and I discuss the upcoming meetings and came up with this timeline; let me know if anything needs to be adjusted. **Are we expecting any revised Delta performance measures from Reclamation?**

**By 11am Tuesday ROC internal meeting:** I will update NMFS Delta Performance measures document to include some additional options to handle "banner years" for both wild WR and wild steelhead thresholds.

**By COB Tuesday:** I will share another update of NMFS Delta Performance measures document, with (I hope; not sure how data crunching will go) at least a first cut at the threshold based on ALL unclipped Chinook and any revisions based on our 11am meeting..

**By 9am Tuesday:** I will have another iteration of NMFS Delta Performance measures document (will still label as draft) to share with Reclamation.
