Subject:	Re: EndNote Winter-run I&S

Thanks Brittany! I'll take a look. I'll transfer the changes I made yesterday to that file (BC version), save it as V8, and continue to work in that file.

2.8 Integration and Synthesis winter-run V8 MASTER

All,
Yesterday I moved several w-r I&S versions that were sitting in the main I&S folder into the archive folder. I'm trying to maintain just one file in the main folder so it's clear which one we should use.

I saw a file named: "2.8 Integration and Synthesis winter-run V7" in the main folder and I moved that one to the archive as well. It's not clear who made that version or why "MASTER" was removed. Any updates or revisions made in that one will need to be transferred to this version in the main I&S folder:

2.8 Integration and Synthesis winter-run V8 MASTER
